Will your Golden go belly up for you or anyone, including children? Yes

Are you able to donate any items for the adopting family?

Is there anything further we should know about this Golden?

Comments from the OTI: The OTI requested that you call him first but if he doesn't answer then please text him and he will return your call. He doesn't have voice mail.

Intake Comments: OTI has been to some of the swimming parties we have had and has spoken with Janet. He has two Golden's and is renting at this time. His landlord said he could only have one. The male he has had since he was a puppy. The female, Willow, he bought from a family when she was 6 months old. He said she has been gaining weight in the last 6 months and said the vet said it was thyroid but the way he feeds them would add weight on any dog. He said he hasn't been to a vet in over a year. Would like transport to arrange to pick up the dog when his kids are not home,
